

RACCOONX

WHITEPAPER • 2026

A community-first Solana meme project built around cyberpunk aesthetics, fast transactions and transparent token economics.

Token	RCX
Network	Solana
Total Supply	1,000,000,000 RCX
Transaction Tax	0%

This document describes the current concept and intended direction of RACCOONX. It is not a promise of future performance, exchange listings, price targets or returns.

1. Project Overview

Overview

RACCOONX (RCX) is a Solana-based meme project combining community culture with a cyberpunk visual identity. The project is designed to be simple to understand, transparent in its token structure and focused on building an active online community.

Positioning

RACCOONX is intended to operate first as a community and brand. Future utilities may be introduced when they provide a meaningful reason for the community to participate rather than being added only for marketing purposes.

2. Vision

Community

The long-term goal is to build an engaged global community around the RACCOONX brand, with transparent communication and visible development progress.

Brand

RACCOONX uses a cyberpunk raccoon identity to create a recognizable visual language across the website, social channels and future ecosystem experiences.

Growth

Growth is expected to come from community participation, content, partnerships, listings and continued development rather than from guaranteed financial outcomes.

3. Token

Core Parameters

Ticker: RCX. Network: Solana. Total supply: 1,000,000,000 RCX. Planned transaction tax: 0%.

Contract

The official token contract address will be published on the project website and official social channels once the token is deployed. Until deployment, no placeholder address should be treated as an official contract.

4. Tokenomics

Liquidity — 40%

400M RCX. Intended to support a reliable initial trading environment and liquidity provision.

Community — 30%

300M RCX. Intended for community growth, rewards and ecosystem incentives.

Marketing — 15%

150M RCX. Intended for brand growth, campaigns and community acquisition.

Team — 10%

100M RCX. Intended as a long-term development allocation. Specific vesting or lock arrangements should be publicly disclosed before deployment if applicable.

CEX / Partnerships — 5%

50M RCX. Reserved for future exchange applications and strategic partnerships.

5. Roadmap

The roadmap represents planned directions rather than guaranteed outcomes. Milestones may change as the community, market conditions and project priorities evolve.

6. Community & Ecosystem

Community participation is a central part of RACCOONX. Planned channels include social media, community discussion spaces, content and future community-driven initiatives. The project intends to prioritize clear communication around launches, changes and important contract or token information.

7. Security & Transparency

RACCOONX intends to publish the official contract address once deployed and keep key token information publicly accessible. Any future claims around liquidity locks, team vesting, audits or exchange listings should be backed by verifiable information rather than promotional statements.

8. Future Development

Potential future development areas include staking concepts, DAO governance, NFTs, utility expansion, partnerships and broader ecosystem integrations. These areas are exploratory until formally announced and implemented.

9. Disclaimer

RACCOONX is a community-driven meme and cryptocurrency project. This whitepaper is informational and describes the project's current concept and intended direction.
